# Increase Nurse Retention

+7% Avg. Increase for Enterprise Health Systems Using ShiftWizard Staff Scheduling Software

*Nurses hired into 3 health systems were tracked over the course of 5 years. Within each health system, two cohorts were compared (1) those in departments that fully embraced self-scheduling; and (2) those in departments that did not offer complete self-scheduling.*

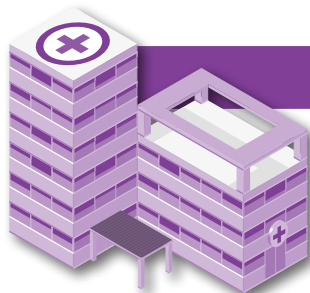

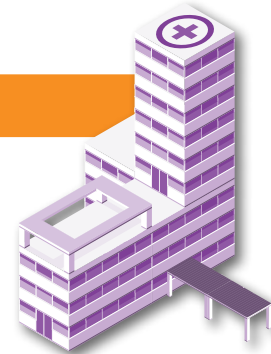

## HEALTH SYSTEM A - 900+ Staffed Beds

- 14 nurses incrementally retained per year
- Assuming average nurse replacement costs, this equates to **\$850,000 in annual savings.**

## 700+ Staffed Beds - HEALTH SYSTEM B

- 5 RNs incrementally retained per year
- Assuming average nurse replacement costs, this equates to **\$300,000 in annual savings.**

## HEALTH SYSTEM C - 200+ Staffed Beds

- 3 nurses incrementally retained per year
- Assuming average nurse replacement costs, this equates to **\$180,000 in annual savings.**
